Create a Garden as Unique as You Are

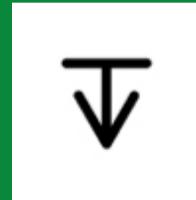

flowers

sunflower

Sunflowers have big, daisy-like flowers with bright yellow petals and brown centers. They are tough plants that can grow in most soil types. Sunflowers attract many beneficial pollinators to the garden, and, of course, produce delicious seeds!

Quick info

season

warm

Frost

semi-tolerant

Germination

7-14 days

Sprout to
Harvest

80-90 days

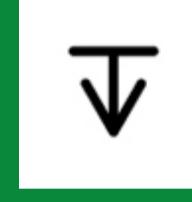

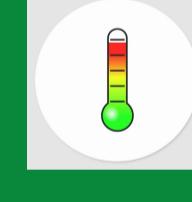

Flowers

Marigold

These bright orange flowers add a splash of color to the garden. Marigolds have the added benefit of being a natural pest deterrent, making them an excellent companion to a plethora of plants. Additionally, if properly cared for, marigolds will bloom all summer long!

Quick info

Spacing	depth	sun	water	season	Frost	Germination	Sprout to Harvest
							
1/square	1/8in	Full sun	1 in/week	warm	not tolerant	4-14 days	6-8 weeks

Fruits

Apple

Apples are one of the most commonly grown fruit trees.

There are a myriad of different apple varieties suited for different climates and culinary uses.

It is worth noting that apples are one of the most pest-susceptible fruits, so some form of pesticide use is almost always necessary.

Fruits

Grapes

Due to their many different varieties, they can be grown in both warm and cool climates.

Onion

They are easy to grow due to their hardiness.

We recommend using onion sets, which can be planted without worry of frost damage and have a higher success rate than direct sowing or transplanting.

Quick info

Spacing	depth	sun	water	season	Frost	Germination	Sprout to Harvest
4/square	1/4in	Full sun	1 in/week	cool	tolerant	4-10 days	90-120 days

About us

Welcome to Digital Gardening Planner, your ultimate companion for planning and managing your garden with cutting-edge digital tools and resources.

At Digital Gardening Planner, we believe that cultivating a garden is not just a hobby, but a fulfilling journey that connects us with nature and nourishes our soul.

Whether you're a seasoned gardener or just starting out, our platform is designed to simplify and enhance your gardening experience.

Whether you're tending to a small backyard garden or cultivating a vast landscape, Digital Gardening Planner is here to support you every step of the way. Join our community of passionate gardeners and embark on a journey towards greener thumbs and flourishing gardens.

Happy gardening!
